

## ‘R-atics4 Program 29 October – 31 October

---

### **Day 1 Tuesday 29 October 2013**

---

9:15-9:30 Welcome address by Daniel Lançon Vice-president of research, Université Stendhal

9:30-10:30 Guest speaker: Ian Maddieson (University of New Mexico and University of California, Berkley - USA) ‘*Rhotics in in onsets and codas*’.

*Coffee break 10:30-10:50*

10:50-11:20 E. Lawson (Queen Margaret University, Edinburgh), J. Stuart-Smith (University of Glasgow), J. Scobbie (Queen Margaret University, Edinburgh) "*Using ultrasound tongue imaging to study the transfer of covert articulatory information in coda /r/*".

11:20-11:50 T. Jauriberry, R. Sock, A. Hamm (University of Strasbourg) "*A Sociophonetic Analysis Of Rhotic Variation In Dundee Middle-Class Scottish English*".

11:50-12:20 R. Lennon (University of Glasgow) "*The Effect of Experience in Cross-Dialect Perception: Parsing /r/ in Glaswegian*".

*Lunch 12:20-14:00*

14:00-15:00 Guest speaker: Chiara Celata (Scuola Normale Superiore di Pisa, Italy) ‘*Articulatory constraints on rhotic retroflexion in the Romance dialects*’

15:00-15:20 A. Romano (University of Turin) "*A Sketch on the Phonetics of r-sounds in Italy*".

15:20-15:40 A. Vietti, L. Spreafico (Free University of Bozen) "*How to cope with hyper-variation: The strange case of /r/ in Bozen-Bolzano*".

*Coffee break 15:40-16:00*

16:00-16:20 M. Baltazani (University of Ioannina), K. Nicolaidis (Aristotle University of Thessaloniki) "*The diversity of /r/ realization in voiced Cr clusters in Greek*".

16:20-16:40 D. Mueller, U. Reubold (Ludwig-Maximilians University, Munich) "*Rhoticisation and lambdacisation as perceptual confusion*".

16:40-17:00 Delano S. Lamy (State University of New York) "*A sociophonetic analysis of trill production in Panamanian Spanish*".

17:00-17:20 M. Tabain (La Trobe University, Melbourne), A. Butcher (Flinders University, Adelaide) "*Apical stops in Pitjantjatjara: medial and neutralized initial position*".

17:20-17:40 P. Machac, M. Zikova (Charles University in Prague) "*Distant assimilation in Czech? Characteristics of [r] in terms of its position in the syllable*".

---

**Day 2 Wednesday 30 October 2013**

---

9:00-10:00 Guest speaker: Rudloph Sock (Université de Strasbourg, France): Sock, Laprie & Vaxelaire, '*R sounds in the Strasbourg X-ray data-base*'.

10:00-12:00 Special session R sounds in linguistic atlas: Michele Contini (GIPSA-Lab, Stendhal University), Silvia Gally (GIPSA-Lab, Stendhal University), Hans Van de Velde (Utrecht University).

Lunch 12:20-14:00

14:00-14:20 D. Turton (University of Manchester) "*Draw(r)ing conclusions from ultrasound data: contextual patterns of /r/ variation in varieties of English*".

14:20-14:40 E.-G. Cohen (Tel Aviv University), C. Savu (University of Bucharest), L. Laks (Bar-Ilan University) "*Crazy Little Thing Called /R/: Unlocking The Mysteries Of The Hebrew Rhotic*".

14:40-15:00 S. Jaworski (Szczecin University) "*The obstruentised rhotic of Polish*".

15:00 > 19:00 Cultural program.

Participants will have the choice between a visit to the museum of phonetics at the Gipsa-lab (including demos) or having a mountain-bike tour in the Isère valley.

19:00 Conference dinner

---

**Day 3 Thursday 31 October 2013**

---

9:00-10:00 Guest speaker: Ronald Beline (Universidade de São Paulo - Brasil) '*/-r/-fullness in São Paulo*'

10:00-10:20 J. Scobbie, E. Lawson, S. Nakai (Queen Margaret University, Edinburgh) "*Coda /r/ in Scottish English is weakening, in opposite directions*".

Coffee break 10:20-10:40

10:40-11:00 I. Rennie (University of Helsinki and Centre of Linguistics of the University of Porto) "*The phonological status of rhotics in Brazilian Portuguese: an exemplar-based approach*".

11:00-11:20 D. Jiquilin (State University of Campina) "*On the gestural tuning in L2 acquisition of the Brazilian Portuguese rhotics by L1 Spanish*".

11:20-12:00 V. Meirelles (University of Brasilia) "*Rhotic sounds in a southern variety of Brazilian Portuguese*".

Lunch 12:00-14:00

14:00-15:00 Guest speaker: Fang Hu (University of Beijing - China) '*Post-oralization of nasal initials and the emergence of the rhotic and rhoticization in Mandarin Chinese*'

15:00-15:20 R. van Hout (Radboud University, Nijmegen), K. Sebregts (Utrecht University), H. Van de Velde (Utrecht University) "*Sociogeographic versus linguistic embedding of Dutch r variation*".

15:20-15:40 K. Sebregts (Utrecht University) "*Rhotic relationships: variationist and phonological perspectives on Dutch r variation*".

Coffee break 15:40-16:00

16:00-16:20 E. Ooijevaar (Meertens Instituut, Amsterdam) "*Production of postvocalic /r/ in Dutch spontaneous speech*".

16:20-16:40 S. Jaworski (Szczecin University), E. Jillian (State Vocational School in Gorzów Wielkopolski) "*The phonetic properties of the syllabic rhotic of Croatian*".

16:40-17:00 M. Butskhrikidze (MIT) "*/r/ drop in Colloquial Georgian*".

**17:00 Conclusion**
